For Immediate Release

Corps names Workman regulatory transportation project manager

HUNTINGTON, WV... The U.S. Army Corps of Engineers has named Sarah Workman as its new regulatory transportation project manager.

Workman is responsible for the review and coordination of regulatory requirements for all West Virginia Division of Highway projects within the entire geographic boundary of the state of West Virginia. These regulatory requirements are mandated by Section 10 of the River and Harbors Act and Section 404 of the Clean Water Act.

A native of Huntington, W.Va., Workman graduated from Huntington East High School in 1995. She received a B.S. in Biological Sciences from Marshall University in 1998, and a M.A. in Biological Sciences from Marshall University in 2000.

Workman began her career with the Corps in 1999 as a student assistant in the Regulatory Branch. Prior to her recent appointment, Workman worked as a regulatory specialist in the South Regulatory Section.

Throughout her eight-year career with the Huntington District, Workman has received numerous awards and recognitions including the prestigious 2007 Assistant Secretary of the Army Regulatory Team Award.
